

La Marzocco Espresso Machine

Cleaning Instructions

1. Backflush machine with blind basket, ½ tsp. detergent and cleaning program.

2. Backflush machine with clean blind basket and cleaning program.

3. Remove shower head with screw, clean, tighten gently.

4. Clean portafilter and basket.
► no soaking necessary, water + sponge will do, all parts stainless steel.

5. Clean group head (rubber seal) with brush.

6. Don't remove steam wand tip. Purge well, if necessary (or occasionally) heat up special detergent with water.

7. Clean drip tray and the machine body. Careful (!) if your machine has integrated scales.

8. Control water filter flowmeter.
► It counts backwards, replace at «0» (spent) or when blinking (expired)!
